## THE DOCTOR SOLUTION - DIRECT PRIMARY CARE

---

Most have binged on Netflix a weekend or two. Its time to bring this free market model to medicine.

Direct Primary Care (DPC) is a subscription health care plan *between you and your doctor* - regular check ups, chronic disease care, sick visits, in-office tests, stitches, and more all at no extra cost.

As a member of a Direct Primary Care doctor's practice - binge away until you get better.
